## Gigantic Fair - Virupaksha Shivacharya Swamiji

**Sutturu :** This is the biggest Fair in South Karnataka, which I have witnessed said, Dr. Sri. Virupaksha Shivacharya Swamiji addressing the Drawing Competition and Bhajana Mela.

Sri has invited Devotees, Politicians, Specialist and Public to Sutturu Jathra Mahotsava. I was born and brought up in Sutturu Mutt and now, I am a Pontiff in Maharashtra Mutt. Today is an auspicious day. As I know the importance of Sri Mutt, am giving importance to education as well as in my Mutt he said.

### Exercise For Physical Fitness

Our body needs Exercise for physical Fitness and spiritual development said Sri

Sadguru Bodhinath Velayana Swamiji Hindu Monastery, Hawaii, America.

Addressing the valedictory of Drawing Competition and Bajana Mela at Jathra Mohosthava, shree said that our body needs exercise for good physical health, meditation is required for our spiritual development, education should be practiced

between ages of 13 to 15 years children by chanting mantras regularly that helps them to develop spiritual well. Studying sacred books can improve our knowledge.

There are some spiritual Apps which helps in chanting mantras and cultivate good habit in children. Performing pooja everyday brings "Moksha"

to everyone. Spending at least 10 minutes a day for spiritual activities and exercise. Sri suggested.

### Bhajana bring peace to heart

Farmers are the property of our country and should know about the scientific technology of farming and practice Organic farming, said S.Ramdas MLA KR

Constituency.

Women are getting addicted to serials while children are addicted to smart phones.

Bhajana is not only meant for elders, all folks should learn, listen and sing as it brings peace to heart. Instead of wasting time using mobiles and watching serial, parents

## Casting out fear of Science

**Sutturu:** Jathra Mysore(UoM) under Mahothsava has the Mobile Science Laboratory designed for High School students and funded by Karnataka Science & Technology Promotion Society and donated to Committee for the Development of Science in Schools (CDSS), University of

Mysore(UoM) under Special Development Program.

The Mobile Science laboratory costs Rs.30 Lakh has been altered, to give outdoor demonstration of scientific instruments. The van has a television set and projection screens that make the scientific demonstration

even smarter.

The laboratory has a capacity of accommodating 16 students at a time while demonstrating the experimental instruments in the subject of Physics, Biology, Chemistry, Computer and Electronics.

Their main aim is to help school children from Kannada medium,

especially in rural places and cast out the fear of science.

The CDSS initiated the project of scientific demonstration eight years ago with 18 Retired Science professors, research scholars and other officials from UoM.

The committee has travelled all around the villages in four Districts

### Virtuous Sri Mutt

**Sutturu:** Swanthantra Dev Singh, BJP President of Uttar Pradesh said organizing Cultural, Religious, Agricultural and Desi game programs are the virtuous act. South India matriarchs strive for the better of the society and people who live by hearing their religious messages and blessing are virtuous. Coming from Kashivishwanath and from the banks of the Vindhya River, I thank Sri Mutt on behalf of people of Uttar Pradesh.

## Epilepsy, Not an Illness

**Sutturu:** In the Jathra Mahotsava Indian Epilepsy Association from Bangalore (NIMHANS) created awareness on Epilepsy by enacting a play in Gadduge Premises. It was performed by S. Venkatesh, Srinath, Divakar, Muralidhar and team.

Epilepsy (Fits) is one of the commonest Neurological disorder and its not a mental illness. It is eminently treatable in a vast majority; the person is free to do every activity

even while taking the medicines. This is not a contagious disease, does not cause brain damage and does not reduce intelligence. There is no food diet and it's not hereditary.

When a person suffering from Epilepsy, people should react calm and stop crowding the patient, loosen tight clothes around the neck, prevent the patient from injuring himself/herself, after the seizure stops turn the patient to a side and

wipe the saliva.

People should not insert spoon, finger or any articles into the mouth, don't give water or any other liquid until he/she is fully conscious, never give keys, iron rod or any other metal things in person's hand. It is of no use, it may be harmful as it may injure the person, do not put onion, old footwear and smelling socks near person's nose, also do not restrict patient movements as it causes fracture.

## Bio-fertilizers-Boosting soil fertility

**Sutturu:** Plants nutrients are essential for the production of crops. Soil management strategies today are mainly dependent on Inorganic chemical based fertilizers, which cause a serious threat to human health and environment. Bio-fertilizer has been identified as an alternative for increasing soil fertility and crop production in sustainable

farming. The exploitation of beneficial microbes as Bio fertilizers has become a paramount importance in agricultural sector due to their potential role in food safety and sustainable crop production.

Bio-fertilizer can be important component of integrated nutrients management. Micro organisms that are commonly used as Bio fertilizer components include, Nitrogen fixers (N- fixer), Potassium and Phosphorous solubilizers, growth promoting

Rhizobacteria (PGPRs), endo and ecto mycorrhizal fungi, Cynobacteria and other useful microscopic organisms.

The use of Bio-fertilizers leads to improved nutrients and water uptake and plant growth. These potential biological fertilizers would play a key role in productivity and sustainability of soil and also in protecting the environment as eco-friendly and cost effective inputs for the farmers.
