SUTTURU VAARTE

Online Edition

Sutturu Srikshetra

Jan. 23, 2020 Thursday

Mass Marriage for Social Upliftment

Sutturu: While addressing the gathering of Mass Marriage at Sutturu, Rajarshi Dr. Sri. D. Veerendra Heggade, Darmadhikari, Srikshetra Dharmasthala started with proverb "Maduve Madi Nodu Mane Katti Nodu", if a man fulfills this saying he attains life's fulfillment. Mass Marriage

attains "Purity" in the divine holiness of Sutturu Srikshetra. Couples are fortunate to take blessings from the great Pontiffs of different Mutts, Politicians, Dignitaries, Elderly, Friends, Families and relatives. The Couples should promise between each other for a prosperous marital life. Mass Marriage is eliminating

one of the biggest social evil of inter-caste marriage in the society. He suggested that man should lead a simple life to avoid extravagance.

Former Prime Minister and JD(S) Leader H.D. Devegowda inaugurated Mass Marriage along with Jagadguru Sri Shivarathri Deshikendra Mahaswamiji

and said it brings great joy to bless the newly wedded couples in the presence of Sri . Addressing the gathering he opined his 50 years of intimate

relationship with Sri Mutt. He appreciated the mighty works rendered by Sri Mutt to the needy by offering free Food and Education.

He also added that Jathra Mahotsava guides farmers by organizing Krishi Mela, Cattle Fair and Exhibition. He finally mentioned remarkable service rendered by eminent pontiff Jagadguru Sri Shivarathri Rajendra Mahaswamiji which is now forged ahead by Jagadguru Sri Shivarathri Deshikendra Mahaswamiji has raised the glory of Sri Mutt to the peak and wished the couples a prosperous life ahead.

Krishi Mela : Foreign super crops 'Chia' and 'Teff'

Sutturu : Krishi Mela of Sutturu Jatra Mahotsava has specially introduced foreign super crop 'Chia' and 'Teff' which are main attractions in this year.

Chia: It is an International foreign cereal crop. The Chia crop, is native to Mexico and South America. It is an ideal crop for planting in October and November and it grows in three months. This crop can be grown in the natural

system of Zero-cropping and does not require any chemical fertilizers. Chia's scientific name is 'Salmon hyssonic', belongs to the family of 'Lemisi'. This chia seed drug has the advantage of being used in Ayurvedic medicine. Including the leaves, root, stems and seeds of plant contains immune power to destroy the bacterias in human body. Chia crop contains Magnesium, Zinc,

Copper, Phosphorous, Iron, Potassium, Fiber, Protein, Oil content. 'Omega three fatty acid' which is produced only in fish is also contain in Chia crop, which is not produced in human body. This Crop can be grown very well on low water and low nutrient load. No wild and domestic animals eats Chia crop. The crop has become a boon for farmers in the present day. Especially in the forest side villages, It helps to avoid the conflict between animals and humans. It was firstly introduced in Karnataka in the region of H.D. Kote and later it spread to the forest boundary villages in the region of Gundlepet and Bandipura Tiger Reserve Forest.

Teff : It is also an International Foreign cereal crop. It is native & very important crop of Africa, Ethiopia & South America. It is cultivated between the month of July and November. It is a plant which harvested 2 to 6 months after sowing. It is easy to store and pest resistant crop. Teff scientific name is 'Eragrostis tef', belongs to the family of

'Poaceae'. It contain high mineral content. It available in different colors like White Teff, Reddish Teff and Dark Teff. It is drought resistant crop and want moderate water supply with high temperature. It is growing across the world's many countries, in India, Australia, Germany, Netherland, Spain, California and Texas.

Transforming Life with Nature

Suttur : Science and Education expo in Suttur Jathra Mahotsava is blooming day after day. HealthyCoTM, a stall at expo has found a magnetic ways to protect nature of soil with its nutritional value in its original state with our state of art healthy farming solutions. The mission is to educate the farming community and its associates about "sustainable agriculture" while keeping alive the fragrance of environment. The company as introduced many agricultural products useful to farmers,

BOSS: Bio Organic Soil Solution, is an advanced formulation based on Karyon technology, suitable for all kinds of the crops such as cereals, pulses, cotton, tea-gardens, vegetable crops and

fruit plants. This product has been designed with a focus on effective utilization of Rhizosphere ecosystem in soil environment.

BOFF: Bio Organic Fruiting Formulation is used to boost flowering, pollination, fruit setting, fruit development and fruit shining as well. This product has been designed with special focus to increase the yield and quality of the farm produce.

ONITON: This product is scientifically designed to

provide adequate photo-nutrients to improve the Phyto nutritional value of most of the root crops like onion, garlic, ginger, turmeric and other tubers.

ORYCANE: This product is based on advanced formulation based on Karyon technology, especially designed for crops such as Sugarcane and Paddy(Rice). It promotes faster cell division for crops to get higher yield and nutritional value.

-Steffy Ruth S

A Bajana Troup singers took part in the State Level Bajana Mela during the Suttur Jathra Mahotsava.

The Officials of Karnataka State Tourism and Development (KSTD) inaugurated the Boating and took a first ride, during the Sutturu Jathra Mahotsava.

Devadhari

Sutturu: The Ficus Religiosa (Astapala, Peepal) is a species of fig native to the Indian subcontinent and Indo-China. It is also known for its Medicinal values, besides releasing lung cleansing oxygen into the atmosphere. The leaves are found in the Forests of Malnad(Coorg). As far as Science is concerned, according to the records that plants release oxygen during day time. Peepal tree is said to be great source of oxygen along with Neem and Tulsi. It purifies the surroundings and kills harmful bacteria.

It is valuable in treating Skin Diseases like Acne (Pimples), Abscess, Wounds,

Scabies and Warts. Its fruit is consumed in powdered form to cure Asthma. There are no side effects with this herb.

It is interesting to find this leaves significance in one of the stalls of Sutturu Jathra Mahotsava Exhibition. This can be lit in corner of the house after dipping it in oil. Its fragrance curbs the impurities in the air, creates positive vibes and controls virus and bacteria. Widely found in few temples of India, it long lasts up to one year. No external chemicals or preservatives are used. "We have chosen to bring this idea here to give aware-ness of its benefits to the people" said the stall owner. - Vinay S.P

Farm Land Management Service

Sutturu : Best agro service provider company " Smart Agro" in Sutturu Jathra Mahotsava is offering a reliable service to solve all farming problems faced by agriculture landowners. They scientifically plan the organic crops that are most suitable for the land and sow the seed

and plant crops on a timely basis. Complete management of crop from irrigation till

harvesting is carried out by the company. Smart Agro stores crops in safe warehouses and eliminates the need for a middlemen do the marketing of crop. The firm ensures that agricultural land is put to good use. "If you own agricultural land then please contact us and let's put your land to good use."

- Steffy Ruth S

Flock of devotees throng the Gadduge on the 2nd day of Sutturu Jathra Mahotsava.

Peace-Prayer Friendship March at Suttur

Suttur: On Jan.22, Peace-Prayer Friendship march took place at Suttur. The procession began from Suttur Sri Mutt. The students

of Guru Kula worshiped the Idol of Sri Shivarathreswara Swamiji. Students of JSS Suttur, with band set and placards, conveying message

to the society marched along the procession. Students of Guru Kula and many people marched singing the Vachanas.

Shatsthala flag was hoisted at Gaddige by Sri Chidananda Swamiji of Sri Hosa mutt, Mysuru.

Sri Channarudra-muni Shivacharya Swamiji of Sri Rudramunishwara Mutt Soogooru, Kalaburgi, preached the Dharma-sandesha at this occasion. He

said "many fair are conducted in many villages, but the Jathra Mahotsava of Suttur is an ideal for all villages".

He said Jathra Mahotsava committee is organizing many events that create great interest rural culture. Sri Shivarathri Deshikendra Swamiji have been helping the society in many ways, people should make best use of it.

He preached that everyone should always have

helping nature, humanity and urge to work and earn.

He said 'Gandhi had the vision of peace, Alexander of an empire, Mother Teresa vision of taking care of orphans, Anna Hazare dreamed of rural development and Sri Shivarathri Deshikendra Swamiji's vision welfare of the society'.

He concluded his speech by rendering greatfullness to the Suttur Parampare and Sri Shivarathri Deshikendra Swamiji.
